

'time to talk'?  
what's that all  
about?

it's  
Warwickshire's  
strategy for  
communication  
- you can take  
part too

oh... why  
would I do  
that?

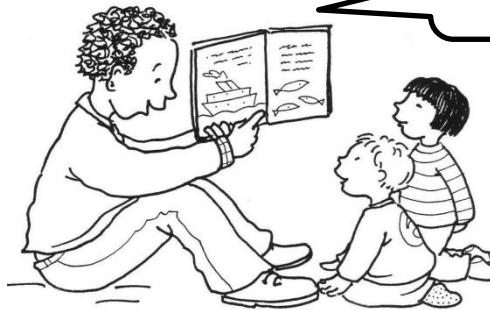

it helps you and your team to  
support children's speech,  
language and communication

my team learned how  
to measure children's  
communication skills

and 'time  
to talk'  
shows you  
how to  
track their  
progress too

we have learned lots of  
everyday strategies to  
use with children

...we've really  
noticed the  
difference

we have picked up lots of  
tips and resources for  
working with parents

and we've developed our  
environment to be more  
communication-friendly

where can  
I find out  
more?
