'time to talk' Tier 1 training

is an introduction to Speech, Language and Communication. It is relevant to any professional who works with babies and young children ages 0-5.

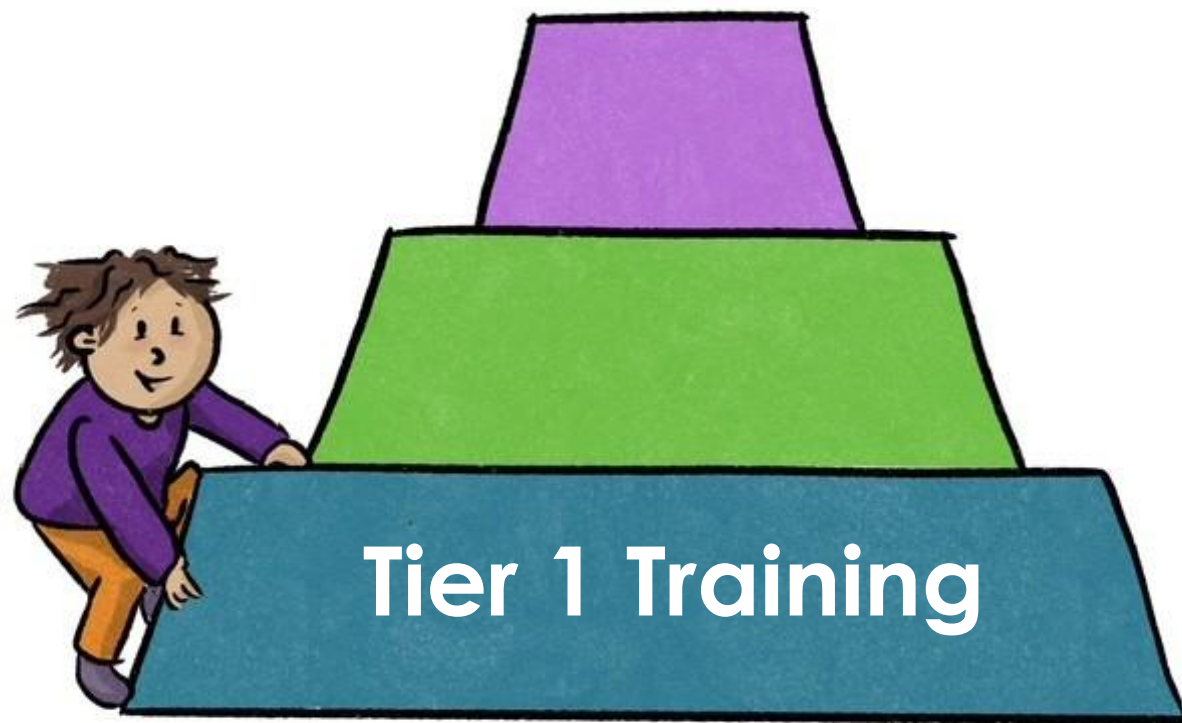

We explore what Speech, Language and Communication is, how to accurately observe it's development, how to spot needs early and put support in place. We also explore how the environment around the child can support communication to develop and provide you with tools to reflect on the spaces you create.

'time to talk'™ **Tier 1 with WellComm** combines our well-established Tier 1 training for EY with an in depth look at how to use the WellComm toolkit.

The training provides practitioners with an understanding of the importance of developing excellent early speech language and communication skills in young children. It explores the different aspects of speech language and communication and gives practitioners strategies to support these effectively in their classrooms. The WellComm toolkit adds a formal screen to support accurate and specific identification of language need and ideas to help all children progress. We are offering places to **reception class teachers** only; however, we will accept **reception TAs** if they accompany the class teacher. TAs cannot attend without a teacher.

The training will signpost teachers to our Tier 2 and Tier 3 training which explores Speech, Language and Communication in greater depth. Settings **must** purchase and bring their own copy of the WellComm toolkit (Early years or digital). Find out more [here](#)
